	ENVIRONMENTAL MANAGEMENT SYSTEM	ENV-02	1 of 1

ENV-02:

Environmental Policy

It is the goal of RTOERO to ensure that its operations and activities are carried out upholding the principles of environmental stewardship and not adversely affecting the environment. RTOERO is committed to continually reviewing and improving its environmental performance and complying with standards set out by the International Organization for Standardization (ISO 14001), with a view to reducing environmental impacts at all levels of the organization.

Policy Aims

All new policies introduced by RTOERO will be assessed for their effects on the environment.

RTOERO:

- aims, where possible, to minimize the use of energy in its own buildings and equipment as well as continual improvement in environmental performance.
- aims, where possible, to control the consumption of water to a level appropriate for efficient operations.
- will encourage employees and contacts to reduce their negative impact on the environment.
- will ensure that a strict policy is adhered to in the purchase of materials to meet operational needs and to minimize the production of waste.
- will, where practicable, ensure that all recyclable waste is disposed of in an appropriate way.
- will ensure that the condition of its building, and surroundings available to members, staff, and visitors are operating in accordance with its environmental policy.
